SETTING UP STRIPE

There are unique differences in the bidder's experience depending on what payment method you choose. Below, we will explain Stripe.

Stripe

When bidders make a payment or store a credit card through your auction, there will be NO mention of Stripe and they will not need a Stripe account to complete payment. We place a simple credit card form on the website and on invoices to make a payment.

Once they fill in their billing address, name on card, and credit card details, Stripe will charge their credit card and display a successful message.

Stripe has a better user experience compared to PayPal. Auction Payouts will be deposited into your bank account in as little as 48 hours.

Stripe will request the following information:

- Country: Enter the country you are located in.
- Product: You may enter "Online Auction on Charity Auctions Today."
- Business Type: Select the business type that best represents you.
- EIN #: For businesses and Nonprofits, put your Federal EIN number.
- Business Address: The address where the business/nonprofit is located. For individual accounts, put your home address.
- Website: Put your business/nonprofit website. If you do not have a website, you can put in your auction URL.
- Your Personal Information: Adding this information helps to protect against fraud.
 - Legal Name
 - Date of Birth

Connecting a Stripe Account

When setting up a Stripe account you will be required to complete a short form that will take about 5 minutes to complete. Once you complete the Stripe form, the new Stripe account will be automatically connected to your auction.

Stripe fees usually are 2.9% + .30 for Visa, MC and Discover and 3.9% for Amex. Note: If you are adding an existing Stripe account, there is a .7% fee added to your current Stripe discounted rate.

If you already have a Stripe account, you'll find a Login link at the top of the Stripe form.

- Social Security Number (last 4 digits only)
- Credit Card Statement:
 - Business Name: This name will show on the winning bidders credit card statement. If you are only using the stripe accounts for the auction, use the auction name.
 - Phone: Enter your number as the main contact's phone number.
- Banking Details: This is where you would like your auction payout to be deposited.
 - Routing Number
 - Checking Account Number
- Save Your Stripe Details: This will create a stripe account so you can check status of payouts and other end of auction reports.
 - Email
 - Password
